## GLOBAL

- China's manufacturing Purchasing Manager's Index (PMI) fell to 50.1 in August as factory activity expanded at a slower pace due to domestic Covid-19 outbreaks, high raw material prices, and slowing exports. Meanwhile, the services sector slumped into contraction. The non-manufacturing PMI in August was 47.5, well down from July's 53.3. Covid-19-related restriction drove services sector activity into sharp contraction, especially for catering, transportation, accommodation, and entertainment industries.
- Australia's gross domestic product (GDP) expanded 0.7% (QoQ) in the second quarter of 2021. The figure showed strength in consumer and government spending, housing, and business investment, though much of that was offset by drags from net exports and inventories. However, the economy was already slowing in the quarter before widespread coronavirus lockdowns slammed everything into reverse.

## DOMESTIC

- Bank Indonesia has issued new rules to support micro, small and medium enterprises (MSMEs). Under the new regulation, banks must provide financing of at least 20% of their total portfolio for MSMEs or called the macroprudential inclusive financing ratio (RPIM). The new regulation will take effect in June 2022, and the ratio will go up to 25% in June 2023 and to 30% in June 2024.
- Indonesia's consumer price index (CPI) rose 1.59% (YoY) in August, mainly driven by low base-effect. Three main contributors to inflation were education (0.07%), health (0.01%), and household utilities (0.01%). Households, in general, were consuming at a lower rate than their potential level. However, household purchasing power is still high and will spend more upon gradual PPKM reopening.

# COMMODITIES

- India's coal-fired power generation rose 23.7% (YoY) in August due to a steep increase in electricity demand. Over half of the 135 coal-fired power plants had less than a week's supply of coal left. This condition pushed the government to ask utilities to import coal to address the higher demand for fuel. Coal-fired power accounts for more than 70% of India's electricity generation, and it makes India be the world's second-biggest importer of coal.

# STOCKS

- (9/1) The MSCI world equity index rose 0.2%, while the stock market in Euro Zone and Asia followed the gain. The Euro STOXX 600 and MSCI's broadest index of Asia-Pacific shares outside Japan climbed 0.8% and 0.2%, respectively. World shares strengthened on Wednesday as the dollar struggled to move away from three-week lows. The gain seemed to shrug off economic data that pointed towards weak economic growth to start the month.

# FOREIGN EXCHANGE

- Most Asian emerging currencies strengthened modestly on Monday. South Korea's won, Malaysian ringgit, and Indonesia rupiah appreciated against the U.S. dollar by 0.60%, 0.79%, and 0.33%, respectively. U.S. dollar depreciated against most Asian emerging currencies after U.S. Federal Reserve Chairman Jerome Powell indicated there was no rush to tighten monetary policy.

## YIELD

- 10-year government bond yields down to 6.10% on Friday (9/3) from 6.17% on Friday (8/27) amid rising yields of United States (US) bonds ahead of the release of U.S. employment data. U.S. employment data will be released at 08:30 US time or 19:30 WIB. Economists in a Dow Jones poll forecast at least 720,000 jobs in August, down from around 943,000 jobs in July 2021. Meanwhile, the unemployment rate is expected to fall to 5.2% in August 2021, from 5.4 in July 2021. The employment data can be used as a reference for the U.S. central bank in deciding on tapering or reducing the value of the asset purchase program.
- On Friday (9/3) the 10-year U.S. treasury yield up to 1.32% from 1.31% on Friday (8/27) after a disappointing August jobs report amid an increase in the Covid-19 delta variant. U.S. employment data reported U.S. nonfarm payrolls increased by 235,000 in August. This increase fell short of economists' forecasts for an increase of 733,000 in August.

# INDEX

In the fifth week of August 2021, corporate bond yields with AAA rating, the yield for the 9-10 year tenor was in range 7.41%-7.53%. In AA rated bonds with a 9-10 year tenor was in the range of 7.92%-8.14%. For A rated bonds with a 9-10 year tenor in range 10.84%-11.00%, and at BBB rating in range 11.88%-12.08%.
