### PT Medco Energi Internasional Tbk rated “idA+” with stable outlook

PEFINDO has affirmed its “idA+” ratings for PT Medco Energi Internasional Tbk (MEDC), its Shelf Registration Bond III Year 2018-2019, and Shelf Registration Bond II Year 2016-2017. The outlook for the corporate rating is “stable”. PEFINDO also has affirmed its “idA+” rating for MEDC’s maturing Shelf-Registered Bond II phase II tranche B amounting to IDR701 billion that will mature on September 30, 2021. The Company will repay this maturing debt using cash that already secured in the escrow account. As of December 31, 2020, MEDC had cash and cash equivalent of USD445.6 million (including USD149.1 million restricted time deposit and cash in banks).

An obligor rated *idA* has a strong capacity to meet its long-term financial commitments relative to that of other Indonesian obligors. However, the obligor is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than higher-rated obligors. The Plus (+) sign indicates that the rating is relatively strong within the respective rating category.

Debt security rated *idA* indicates that the obligor’s capacity to meet its long-term financial commitments on the debt security, relative to other Indonesian obligors, is strong, however, the debt security is somewhat more susceptible to adverse effects of changes in circumstances and economic conditions than higher-rated debt. The Plus (+) sign indicates that the rating is relatively strong within the respective rating category.

The rating reflects MEDC’s diversified assets, favorable oil and gas reserves, and good operating management. The rating is constrained by its moderate capital structure, moderate cash flow protection measures, and inherent risks related to the commodity-based sectors.

The rating will be raised if MEDC significantly improves its capital structure as reflected by debt to EBITDA at less than 3.5x on a sustainable basis, supported by its deleveraging plans and potential improvement in its profitability on the back of efficiency efforts and expected improved commodity prices, in addition to portfolio rationalization and strategic partnerships to finance its further development of PT Amman Mineral Nusa Tenggara (AMNT). The rating will be lowered if MEDC fails to execute its corporate actions and initiatives and/or it incurs higher than projected debt without being compensated by a stronger business profile, which could weaken its capital structure and cash flow protection measures on a sustained basis. The rating could also be under pressure if commodity prices decline, which could affect its revenue and profitability.

MEDC is a publicly listed, integrated energy and natural resources company, with three main businesses in its core business of oil and gas exploration and production (E&P) activities in Indonesia, the Middle East, North Africa, and Southeast Asia; power generation; and mining. In 2020, 82.5% of its revenue was generated from oil and gas, followed by the power business at 12.5%, and others at 5.0%. At the end of December 2020, its shareholders were PT Medco Daya Abadi Lestari (51.6%), Diamond Bridge Pte Ltd (21.5%), PT Medco Duta (0.2%), management (0.7%), and public (26.0%).
